EDUCATION

National University of Singapore (NUS)

Expected 2028

B.Sc. Data Science | Year 3 | GPA: 4.39 / 5.00

CS3216 (in progress): rapid prototyping and collaborative software projects.

TECHNICAL PROJECTS

Vertical SG - Geospatial Stair-Training Platform

Personal Project

React Native, TypeScript, Python, Supabase/PostGIS, MapLibre, OneMap

- Developing a geospatial app to help runners discover tall HDB blocks for stair training; used it to find nearby training locations.
- Developed a Python pipeline to ingest ~13,000 HDB blocks, standardize addresses, geocode locations through OneMap, and persist spatial data in Supabase/PostGIS.
- Refocusing the app on building discovery and essential training features after reconsidering the scope of an initial social-fitness prototype.

NUS Timetable Optimizer - Constraint-Based Scheduling Bot

Personal Project

Python, Telegram API, NUSMods API, Selenium

- Built an optimiser that generates and ranks feasible NUS timetables based on lesson timing, workload, gaps and campus travel distance.
- Converted a local script into a self-service Telegram bot and introduced multithreading to address blocking during concurrent requests.

HejAmigo - Local Errand Marketplace

Paused

React Native, TypeScript, Expo, Supabase

- Built a Denmark-first local errand marketplace with map-based discovery, task posting, offers, messaging, profiles and reviews.
- Collaborated remotely with a non-technical teammate overseas, using regular calls and whiteboard discussions to plan features and implementation.

EXPERIENCE

National University of Singapore - Course Content Creator /

Jul 2025 - Nov 2025

Digital Production Assistant

- Collaborated with Prof. Jiang Kan to produce approximately 4 hours of blended-learning content for NUS TCX1002.
- Applied instructional design, storytelling, DaVinci Resolve, and CapCut to create engaging educational videos.

BearlyFunGym - Children's Gym Instructor

Jan 2024 - Mar 2024

- Coached children through structured lessons, designed activities around developmental milestones, and communicated progress with parents and staff.

LEADERSHIP & ACHIEVEMENTS

202 km Fundraising Run for SHINE Children and Youth

21 Aug 2026

Services

- Completed a 202 km run around Singapore in 47 hours, raising approximately S\$800 for SHINE Children and Youth Services.
- Documented the challenge through Instagram fundraising content, with one Reel reaching 5,000+ views.

AUA-Tsinghua SIGS Sustainable Development & Youth Leadership Program

12 Oct 2026

Selected Participant - Upcoming

- Selected for an international program focused on sustainable development and youth leadership.

CULTRA 60 km Ultramarathon

18 Jul 2026

- Finished in 9h 25m as the highest-placing Singaporean participant in the 60 km event.

Rinjani 60 km Ultramarathon

2 May 2026

- Completed first-ever race - a 60 km mountain ultramarathon with ~5,200 m elevation gain - in 19h 45m; event had an approximately 24% completion rate.

BUS Backyard Ultra

7 Aug 2026

- Placed 3rd, completing 12 consecutive hourly loops / 80 km in 12 hours.

SKILLS

Programming: Python, Java, JavaScript, TypeScript | **Development:** React, React Native, Expo, Supabase, PostgreSQL/PostGIS, Git/GitHub, REST APIs, MapLibre, OneMap | **Creative:** DaVinci Resolve, CapCut, video production and editing
